Minimalism

Minimalistic interior design is certainly chic when put together well. The clean lines and open spaces allow you to enjoy simplicity at its very best. To achieve a minimalistic space.

Contemporary

Contemporary design is, by nature, fairly ambiguous, there are a few qualities that help define the contemporary style. Neutral palettes, stark minimalism, clean lines, and organic silhouettes are some of the prominent characteristics.

Hollywood Glam

It is luxurious, opulent and can be ‘over-the-top’ but perfect for making a statement in our affluent suburbs where the “nouveau riche” want to show off their style. The colour palette is usually very bold with beautiful.

Wabi Sabi

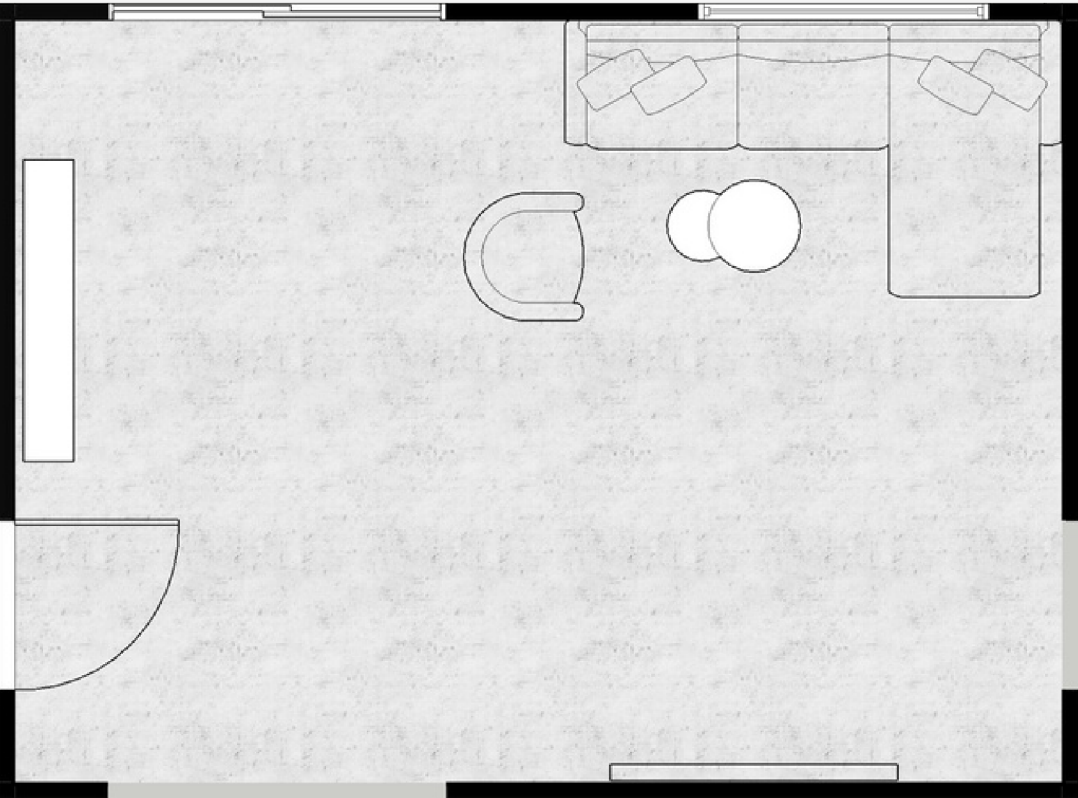

Wabi-sabi is a Japanese term that essentially means finding beauty in imperfection. Unlike other design trends, wabi-sabi doesn’t have specific shapes, colours or decor that defines it. The style follows the same guiding principles as the philosophy itself: natural, lived-in, effortless and, above all, perfectly imperfect.

Residential Renovation

A client wanted a full makeover of the living room and bedroom as he wanted a spacious and functional design for his dog-friendly family. He also wanted to turn another bedroom into a full-size family bathroom.

Layout of the living room
